

Painted Cork Coasters

In this kit, you will find:

- 2 cork coasters
- Various colors of paints
- Mod Podge
- Paint brush

Optional items (not included):

- Masking tape or painters tape
- Alternate paint colors
- Decorative paper

INSTRUCTIONS:

- Determine the shape or design you would like to paint on your coaster. You can free hand sketch the design or you can use the optional masking tape to create a geometric design (see examples).
- Paint your design.
- Let the paint fully dry. If you used tape, carefully peel the tape off.
- Apply a thin and even coat of Mod Podge over the coaster. This will help seal the coaster for any sweating that a cup may give. Once dry, apply 1-2 additional coats of Mod Podge.

Project ideas and inspiration!
